### **Prevent Risk Assessment**

#### **Introduction**

Everyone who comes into contact with children and their families has a role to play in safeguarding children. Schools have a duty of care to their pupils and staff which includes safeguarding them from the risk of being drawn into terrorism - this includes not just violent extremism but also non-violent extremism, which can create an atmosphere conducive to terrorism and can popularise views which terrorists exploit. Schools should be safe spaces in which children and young people can understand and discuss sensitive topics, including terrorism and the extremist ideas that are part of the terrorist ideology and learn how to challenge these ideas.

School staff are particularly important as they are in a position to identify concerns early and provide help for children, to prevent concerns from escalating. Schools and colleges and their staff form part of the wider safeguarding system for children. This system is described in statutory guidance Working Together to Safeguard Children (2018) and Keeping Children Safe in Education (2025). Schools and colleges should work with social care, the police, health services and other services to promote the welfare of children and protect them from harm. Radicalisation is listed as a specific safeguarding issue within this statutory guidance and is addressed within the Government Prevent Strategy. The Counter-Terrorism and Security Act 2015 places a duty on Schools to have “due regard to the need to prevent people from being drawn into terrorism”.

The Prevent Strategy has three main objectives:

- Respond to the ideological challenge of terrorism & the threat we face from those who promote it;
- Prevent people from being drawn into terrorism and ensure that they are given appropriate advice and support;
- Work with sectors and institutions where there are risks of radicalisation which we need to address.

## Prevent Risk Assessment
